

F-Secure

F-Secure Corporation is designed to protect businesses against computer viruses and other threats from the Internet and mobile networks. Their business aim is to be the most reliable provider of security services in the market.

According to independent studies in 2004 and 2005 their response time to new threats is significantly faster than the major competitors. Their award-winning solutions are available for workstations, gateways, servers and mobile phones.

They include:

- antivirus and desktop firewall with intrusion prevention
- antispam and antispymware solutions
- network control solutions for Internet Service Providers

Founded in 1988, F-Secure has been listed on the Helsinki Exchanges since 1999, and has been consistently growing faster than all its publicly-listed competitors. F-Secure headquarters are in Helsinki, Finland, and they have regional offices around the world, including the UK.

F-Secure protection is also available as a service through major ISPs, such as France Telecom, TeliaSonera, PCCW and Charter Communications. F-Secure is the global market leader in mobile phone protection provided through mobile operators, such as T-Mobile and Swisscom and mobile handset manufacturers such as Nokia. Computime are an Authorised Reseller of F-Secure.
